COCONUT CHARCOAL / PRODUCT INFORMATION

Coconut charcoal information

The following information is transcribed from the supplier-provided packaging photograph.

Product information on the packaging

- 100% natural charcoal made from coconut shells.
- Best used when glowing red.
- Tasteless and odourless.
- No harmful chemicals / sulphur-free.
- No sparks when ignited or used.
- Burns twice as long as any other charcoal, according to the packaging.

Safety precautions

- Do not use petroleum derivatives.
- Keep out of reach of children.
- Dispose of charcoal ash properly.
- Do not hold charcoal in your hands while it is burning.
- Store in a dry place.

Features and burn-time claims are reproduced from the packaging; they are not independent test results.

04 / HEATING

African Qard Al-Samri

The heating product sold as African Qard Al-Samri consists of long split pieces with a coarse natural surface. Supplied in 10 kg cartons or sacks, with alternative weights available on request.

Illustrative product imagery
